

Botanical name

PODOCARPUS ELATUS

ILLAWARRA PLUM

Common name

ABOUT

MATURE HEIGHT

10 - 15 metres

MATURE SPREAD

5 - 8 metres

FLOWER COLOUR

Flowers are small and insignificant finger-like clusters arising at the sides of the branches and are green-white in colour.

DESCRIPTION

Tall native evergreen tree with attractive dark, dense glossy foliage that is oblong in shape. Very good shade tree that has edible fruit.

ENVIRONMENTAL REQUIREMENTS

Prefers moist well drained soils, will grow in full sun or part shade. Can tolerate light frost tender when established and benefits from watering during extended hot dry periods.
