Our Services

Landfill

Our Services

Glass bottles & jars:
Stockpiled, landfilled;
Trial reuse program

Our Services

Our Services

Landfill (excl. scrap metal/white goods)

Our Services

- Drop-Off Facilities
 - Community sharps disposal
 - Household battery drop-off
 - Annual Chemical CleanOut
 - Coming soon: Community Recycling Centre

Our Services

- Drop-Off Facilities
 - Bargo Waste Management Centre
- Scrap metal
- Garden waste
- Mattresses
- e-Waste
- Tyres
- Gas bottles
- Clean polystyrene packaging
- Motor oil
- Vehicle and household batteries
- Concrete & brick
- Yellow-lid bin materials

The Draft Strategy

- Five key objectives
 - A service that meets residents' needs
 - Sustainable waste management and resource recovery
 - Minimal adverse environmental impacts
 - Leading by example
 - Working with neighbouring councils

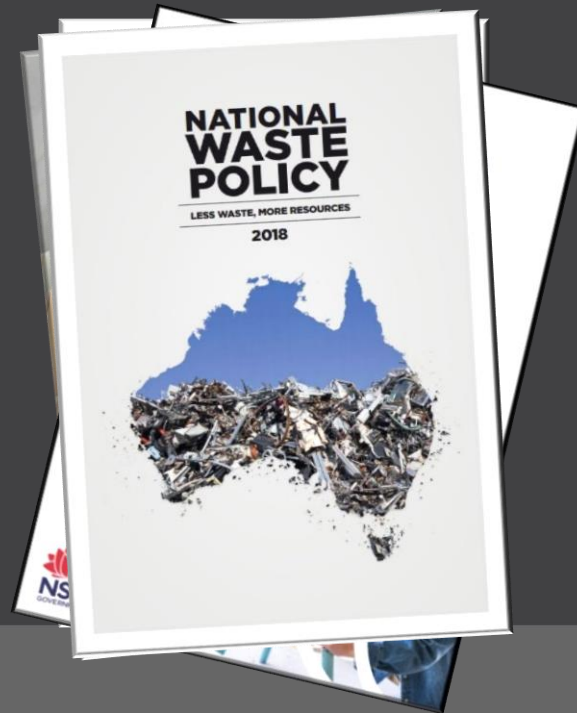

The Draft Strategy

- The Circular Economy
 - Sending recyclables overseas is not sustainable
 - Governments and the industry working on stimulating local markets
 - Buy products with recycled content!

The Draft Strategy

- Government Policy Directions
 - A strong voice to Commonwealth and State Governments
 - Waste diversion targets

The Draft Strategy

- Council's Strategic Waste Management Directions
 - Landfill diversion
 - Reducing the amount of waste we produce
 - Using the yellow-lid bin
 - Diverting food-waste from red-lid bin
 - New technologies: working with other councils

The Draft Strategy

- Council's Strategic Waste Management Directions
 - Domestic waste collection
 - Domestic waste processing & disposal
 - Contamination in domestic bins
 - Litter prevention

The Draft Strategy

- Council's Strategic Waste Management Directions
 - Illegal dumping

The Draft Strategy

- Council's Strategic Waste Management Directions

- Problem waste management:

- Cleaning chemicals
- Paints
- Pool & garden chemicals
- Gas bottles
- Motor & vegetable oils
- Tyres
- Batteries
- Smoke detectors
- Fire extinguishers
- Medical sharps
- Fluorescent bulbs & tubes

The Draft Strategy

- Council's Strategic Waste Management Directions
 - Problem waste management:
 - Medical sharps drop-off
 - Household Chemical CleanOut event
 - Community Recycling Centre
 - drumMUSTER
 - e-Waste drop-off

The Draft Strategy

- Council's Strategic Waste Management Directions

- Education and Information:

- Annual waste booklet
- Promotion of events
- Workshops
- Kerbside clean up
- Website & Social media
- Print media

The Draft Strategy

- Council's Strategic Waste Management Directions
 - Supporting local business

The Draft Strategy

- Development Controls
 - Growing population – a changing housing profile
 - A need for clear controls for waste management
 - Development of formal Waste Guidelines

The Draft Strategy

- Waste Infrastructure
 - Major challenge as Sydney's population grows
 - Bargo Waste Management Centre – limited life
 - Alternative drop-off being planned

The Draft Strategy

Frequently Asked Questions

- When will Bargo landfill close, and where will we take our hard waste after that?

The Draft Strategy

Frequently Asked Questions

- Why don't we have weekly collections for green and yellow lid bins?

The Draft Strategy

Frequently Asked Questions

- Why don't we have on-call clean-ups?

The Draft Strategy

Frequently Asked Questions

- Why do some illegal dumpings get picked up quickly, and others take longer?

The Draft Strategy

Frequently Asked Questions

- Why are our annual domestic waste charges more expensive than some other councils?

The Draft Strategy

Frequently Asked Questions

- Why do we bother recycling? Isn't it all being landfilled anyway?

The Draft Strategy

Frequently Asked Questions

- Why is Bargo Waste Management Centre so expensive?

The Draft Strategy

Frequently Asked Questions

- Who's responsible for fixing my broken bin or replacing a stolen bin?

The Draft Strategy

Frequently Asked Questions

- I've just built my new house but don't have any bins. When do I get them?

The Draft Strategy

Your questions and comments

The Draft Strategy

Jamie Illistom (5 mins)

- What is the council going to do regarding the “Ute army” who create mess and end up having locals accused of illegal dumping. Other councils I’ve been involved with offer either dump drop Off vouchers or on demand pickups.

The Draft Strategy

Jamie Illistom (5 mins)

- The cost of using the local tip is horrendous. Why are we so expensive compared to other local tips? This must contribute to the amount of illegal dumping. People are doing it tougher and tougher. The attitude and behaviour of the dump contractor along with the cost really need looking at.

The Draft Strategy

Adele Taylor (5 mins)

- There appears to be limited focus on FOGO in the Draft Waste Management Strategy & Action Plan, rather suggesting residents implement their own composting solutions. According to the NSW Government's current Waste Avoidance and Resource Recovery Strategy 2014-2021 (WARR Strategy) "the major untapped waste sources are food and garden organics, which account for almost half of the average household waste" with some "40% of waste in household red lid bins sent to landfill is food and garden waste that could be composted" (Cont'd)

The Draft Strategy

Adele Taylor

- Is Project 24, Council's only option to investigate FOGO as a viable source for waste management?

The Draft Strategy

Carolann Nicholson

- Are there any future plans to introduce a program like in the Reviva Centre at the Moss Vale Resource Recovery Centre in the Wingecarribee Council? The Wollondilly could benefit from a re-use, and repair shop of bulky items and building materials. It is also a social enterprise that could encourage people struggling to find work learn new skills. Bargo used to have a similar "shop" a few years ago.

The Draft Strategy

Carolann Nicholson

- I think educating people on how to reduce thin plastics in their waste recycling program (the program) could reduce red plastic was effectively done

REDcycle Soft Plastics Recycling

Household soft plastics and plastic shopping bags can be recycled at participating stores for free.

Coles – Picton, Camden, Bowral and Mount Annan

Woolworths – Tahmoor, Spring Farm, Camden, Glenmore Park, Penrith South, Mittagong West and Mount Annan

Bread bags, biscuit packet wrappers, pasta and rice bags, frozen food and veggie bags, old green reusable shopping bags and cereal box liners.

For more information visit

www.redcycle.net.au

The Draft Strategy

Carolyn Nicholson

- Moving to the FOGO system long term would be good but it would take a lot of community education and consultation to get the transition right without too much contamination.

The Draft Strategy

Other questions and comments

The Draft Strategy

Hannah Periasamy

- Is there any scope for addressing the issue of diverting kerbside clean up waste from landfill?

The Draft Strategy

Hannah Periasamy

- In regards to changing the scheduled kerbside clean ups to an on-call service, while it does solve some problems it raises the issue where people are not able to pick up and re-use items from other peoples piles. When people put their kerbside clean up out in my area, the waste is reduced by half from people who pick up bikes, furniture, etc., so it seems a shame to lose that. While educating people is a huge part, at the end of the day where I live, people don't seem to mind buying the next new thing and placing the old, re-usable items out on the kerb.

Waste Management Strategy and Action Plan 2020 - 2025
