

SECTION TWO

Pricing & Payment

The Bargo Waste Management Centre (Bargo WMC) weighbridge is a certified measuring device. All customers entering the site agree to the weights displayed on the weighbridge and to pay in full the total amount payable upon exit at the weighbridge office. Load classification is determined by weighbridge staff.

Centre charges are applicable to waste generated as a result of:

- People living in a residential property which includes the general clean-up of household items or general household maintenance. This does not include materials generated as a result of large scale renovations or demolition.
- A person or business entity buying, selling or exchanging goods or services at a residential or commercial property located within the Wollondilly Shire Local Government Area.
- Examples include but are not limited to renovations, replacing materials or items or gardening/lawn mowing service.
- The operation of a commercial, industrial, rural or residential property operating an authorised business within the Wollondilly Shire Local Government Area.

Please note minimum entry fee applicable for all weighted items.

- Failure to pay the fee generated by the weighbridge will result in the following three actions; debt recovery action, prevention of re-entry to the site and/ or NSW Police action.
- All debts must be fully paid before re-entry and access to site services is provided.
- All vehicles are weighed in and out to calculate the net weight disposed. Weight is rounded to the nearest 20kg.
- Most prices are based on weight however certain items are charged by quantity as detailed in the price list.
- Bargo WMC only accepts EFTPOS and credit card (Mastercard and Visa) payments. 1% merchant fee applies. Cash and cheques are not accepted under any circumstances.
- It is the responsibility of the customer to declare all waste and recyclable materials upon arrival at the weighbridge.
- Sorted recyclable and mixed waste loads will require multiple trips across the weighbridge to access reduced fees.
- The appropriate charges will be applied on exit to all customers identified by facility staff to have disposed of undisclosed waste items.
- Loads contaminated by materials not disclosed upon entry to the site may incur a re-load fee.
- The unacceptable waste re-load fee for contaminated loads (located in the price list) is in addition to costs involved with the disposal of the contaminated waste.
- A minimum charge applies to all chargeable waste loads.
- The Goods and Services Tax (GST) are included in waste charges.
- Facility staff may visually inspect loads via video camera surveillance and have the authority to take photos of disputed loads.
- During power outages the weighbridge is non-operational and the site will be closed to the public.
