# PRICING & PAYMENT

The Bargo Waste Management Centre weighbridge is a NMI certified measuring device and is verified under the National Measurement Act 1960.

All vehicles are now weighed in and out to determine the net weight of waste disposed.

Weight is rounded to the nearest 20kg and prices are based on waste type and source. Most waste is charged by weight however some items (tyres, mattresses, gas bottles) are charged by quantity. Load classification is determined by weighbridge staff. All charges include NSW EPA levy fee. Proof of Wollondilly LGA residency is required to be shown on entry to the facility by all customers. Please refer to Terms and Conditions for more information

All customers entering the Centre agree to the weights displayed on the weighbridge and to pay in full the total amount payable upon exit at the weighbridge payment window. Failure to stop and pay for disposal at exit will start debt recovery action and/or enforcement action and prevent re-entry to the site.
